

## 4. Configuration of Data Management Frame

This chapter describes the configuration of data management frame.

### 4.1 Configuration of Parcel-related Data (Main Map Data and Route Guidance Data) Management Frame

The parcel-related data contains main map data and route guidance data. For details about parcel-related data management, see Chapter 6.

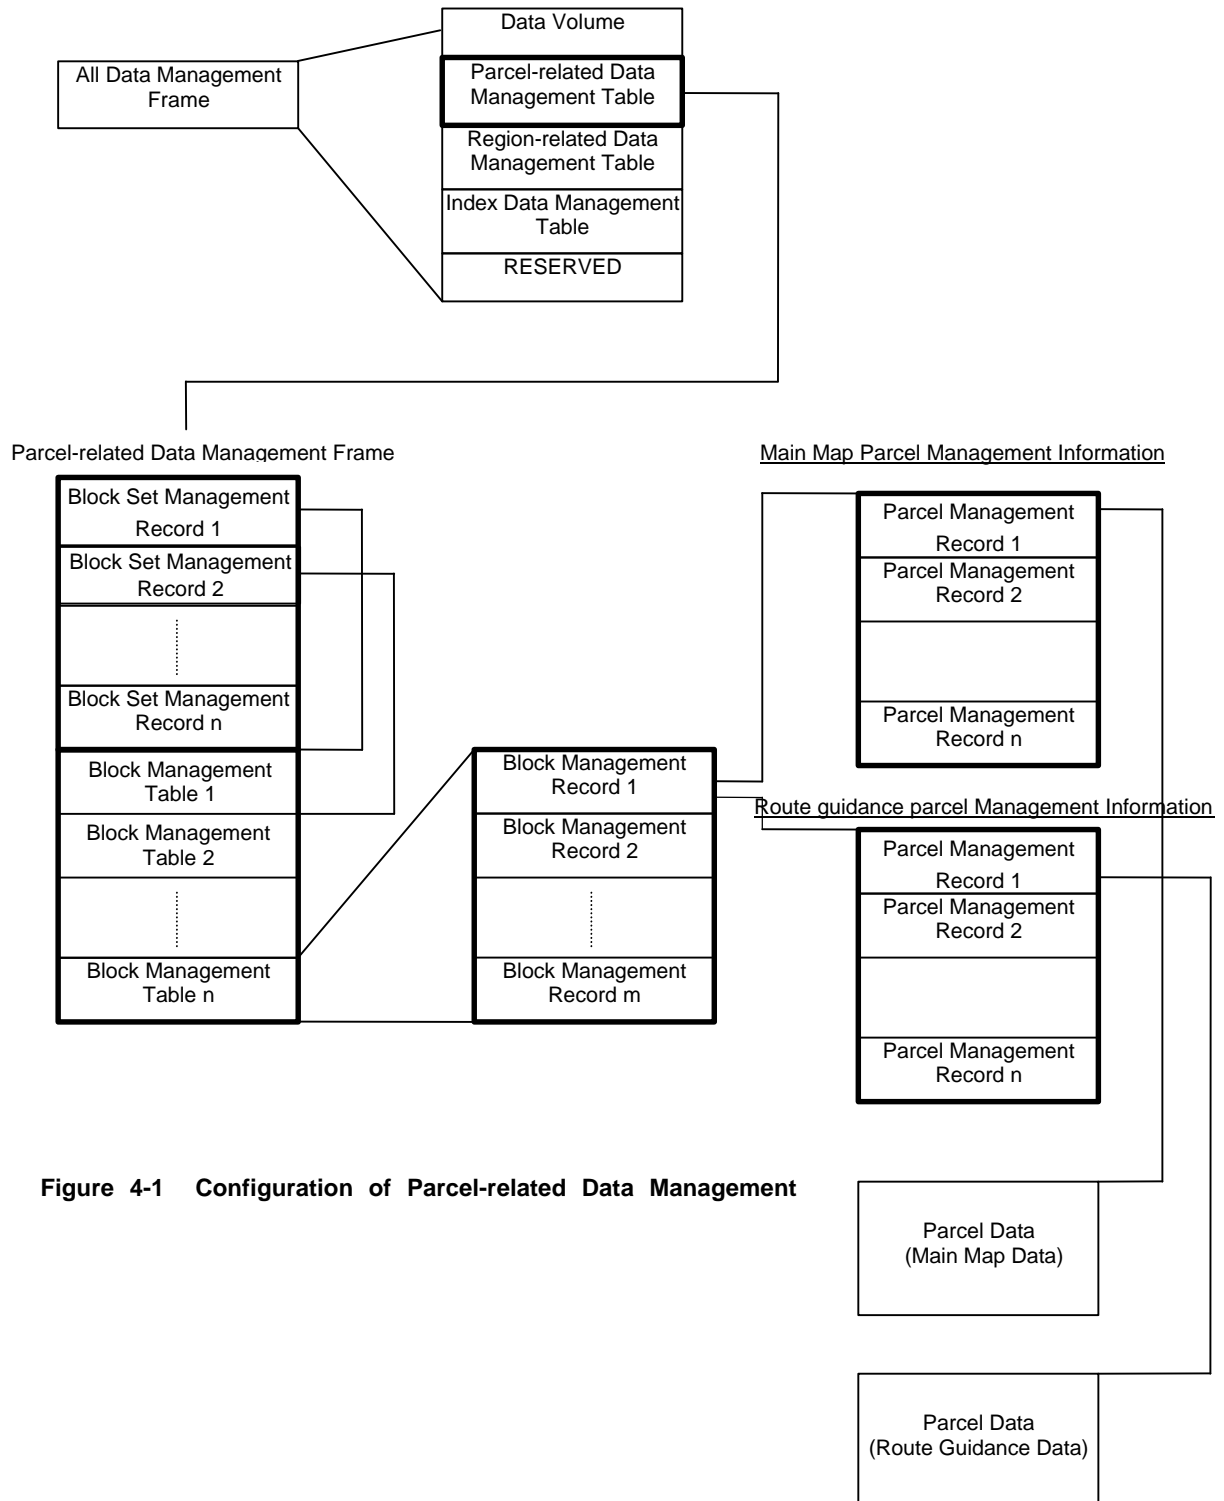

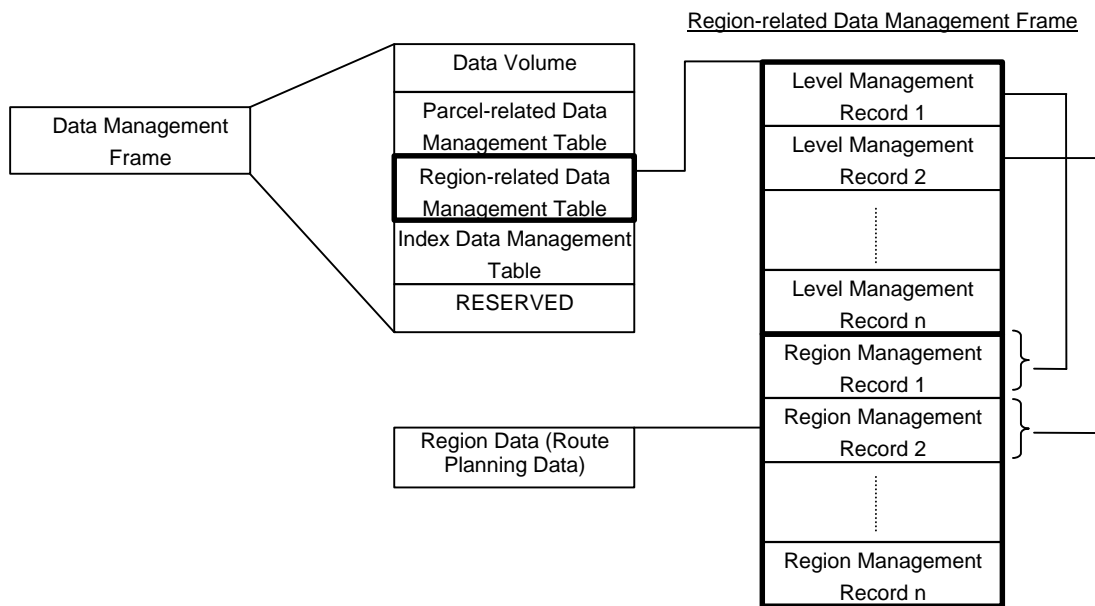

Figure 4-1 Configuration of Parcel-related Data Management

## 4.2 Configuration of Region Data (Route Planning Data) Management Frame

For details about region-related data (route planning data) management frame, see Chapter 6.
